

Access to EMR:

- You will receive an email with your EMR login and password in the coming days. This will provide you student access during your placement period at RMH. If you hold a dual appointment across any of the precinct sites, your profile may have been restricted whilst you are completing placement.
- You will need to assign yourself to a nurse when they sign in. If complete a note or performs a task in EPIC that needs co-signing, the nurse/midwife you are allocated with to be able to co-sign.

Privacy Slides:

- Patient privacy is an important component of healthcare and we are trusted everyday with sensitive information
- EMR will have access to medical records from Peter Mac, Royal Children's Hospital, The Women's Hospital and Royal Melbourne Hospital
- This means patients will receive cohesive care across the precinct, however you are only to access records to provide care to the patient for their presenting problem
- Privacy safeguards are in place and notifications are made if inappropriate information is viewed by yourself or others
- Please do not look at your own, a family member or friends medical information

Inpatient Nursing Students Learning Resources:

- This link connects you to learning resources for inpatient nursing students across the precinct.
- There are 8 videos that must be watched in order
- You will be able to log into the training playground to practice documenting in the EMR within the practice scenario

Perioperative, Cath Lab and Radiology Nursing Students Learning Resources:

- This link connects you to learning resources for perioperative, cath lab and radiology nursing students
- There are 8 videos that must be watched in order
- You will be able to log into the training playground to practice documenting in the EMR with the practice scenario

<https://connectingcareemr.phs.org.au/resources/learning-resources-for-perioperative-nursing-students/>

ED Nursing Students Learning Resources:

- This link connects you to learning resources for the emergency department
- There are 5 videos that must be watched in order

<https://connectingcareemr.phs.org.au/resources/learning-resources-for-rmh-and-rwh-ed-nursing-midwifery-students/>

Medication Administration:

- This link connects you to a video to support students to document in the EMR which includes:
 - o Orientation to the Medication Administration Record (MAR)
 - o Checking prescriptions
 - o Documenting administration
- As a student nurse you will only have a Read-Only MAR, and your buddy RN/RM will have to complete the documentation of medication administration in the Epic EMR.
