Position Description

Specialist Nephrologist

THE ROYAL MELBOURNE HOSPITAL

The Royal Melbourne Hospital (RMH) began in 1848 as Victoria’s first public hospital. And while we only had 10 beds to our name, we had the community of Melbourne behind us, and we were ready to provide the best possible care for those in need.

Since those early years, we’ve moved forward with purpose. Always at the forefront, leading the way on improving the quality of life for all.

Today the RMH is one of the largest health providers in the state, providing a comprehensive range of specialist medical, surgical, and mental health services; as well as rehabilitation, aged care, outpatient and community programs.

Our reputation for caring for all Melburnians is as essential to who we are as any scientific breakthrough we make. We’re here when it matters most, and we’ll continue to be the first to speak out for our diverse community’s wellbeing.

OUR VISION

Advancing health for everyone, every day.

THE MELBOURNE WAY

At The RMH we’re inspired by our vision of Advancing health for everyone, every day. While we’re each going about our different roles, we’re united by a shared understanding of the way we do things around here. We call it The Melbourne Way. We put people first — leading with kindness and working together, we excel as one Royal Melbourne Hospital.

People First

People are at the heart of everything we do. We take the time to understand how we can make the most positive difference for them.
