Financial Assistance

Country patients may be eligible for travel and accommodation rebates under the various state assistance schemes.

Information can be found on the Department of Health websites corresponding to the state in which you live. A number of them are listed below. All forms **MUST** be signed by a health care provider prior to departure.

Victoria - Victorian Patient travel assistance scheme (VPTAS)

- Residents of Victoria who have to travel and stay a long distance to receive essential medical specialist services from an approved medical specialist are eligible to claim through VPTAS.
- Patients need to travel more than 100 kilometres one way, or an average of 500 kilometres per week, for one week or more and must live in a rural zone (Department of Health & Human Services designated rural health area)
- Have to be receiving specialist treatment claimable under Medicare. Allied health is not one of these claimable services (e.g. physiotherapy, podiatry)
- Patients who do not hold a Concession Card or Health Care Card must pay the first \$100 per annum of services, and then claim the remainder.

More information including application forms can be found at

www2.health.vic.gov.au/hospitals-and-health-services/rural-health/vptas-how-to-apply

New South Wales - Isolated patient's travel and accommodation assistance scheme (IPTAAS)

- Must be a permanent resident of NSW or Lord Howe Island, and
- live more than 100 kilometres away from the nearest treating specialist or when combined trips to and from the specialists exceeds 200km/week
- Receive treatment that is claimable under Medicare from recognised medical specialist
- Have claimed the maximum available benefits from your private health fund
- Not to be eligible for assistance under any other government assistance scheme
- There are specific terms and conditions relating to the transport for health in the New South Wales. See the application form for details.

More information can be found at: www.enable.health.nsw.gov.au/services/iptaas or visit the Department of Health NSW web site www.health.nsw.gov.au and type **IPTAAS** in to search and you will get a number of links that will be of assistance.

Tasmania - Patient Travel Assistance Scheme (PTAS)

- Must be a Tasmanian resident
- Receive treatment that is claimable under Medicare from a recognised medical specialist and are not entitled to financial assistance through any other scheme. Have a PTAS form signed by an approved medical specialist, oral/maxillofacial surgeon or rural GP.
- Financial assistance is available towards air/sea and road travel, and accommodation (where applicable) expenses. Your local PTAS Coordinator can pre-book your travel and accommodation prior to departure; or you can organise your own travel and/or accommodation and claim reimbursement on your return home from the specialist treatment.

- You and your escort are required to meet any accommodation costs above the reimbursement. Non-concession card holders are required to pay the first 2 nights of accommodation.
- Health care card or pension card holders are required to contribute towards the cost of each return journey. Non- card holders are required to contribute \$82.50 towards the cost of each return journey
- Travel - In one financial year the maximum contribution for a card holder is \$132, and for a non-card holder it is \$330. If this limit is reached no further contributions are required for that year.

You will find additional information and application forms online at www.dhhs.tas.gov.au or www.dhhs.tas.gov.au/hospital/ptas
