

# Melbourne Health - Community Services across the Care Continuum

For referrers and treaters in the hospital and the community settings to illustrate the range of community and sub-acute services offered by Melbourne Health at the Royal Park Campus and referral mechanisms. Services range from inpatient stay, clinics and home based services and support people to improve quality of life and avoid health and functional decline that may lead to hospital admission. Catchments include Melbourne, Moonee Valley, Moreland City Council and those in surrounding areas who receive all their care from RMH.
